## Explanation of the Wizard Leaderboard Report

The Wizard Leaderboard highlights the most successful jockeys, trainers, and jockey-trainer combinations competing at each meeting covered by the Wizard.

The Leaderboards feature the top 10 jockeys, trainers, and jockey-trainer combinations competing at each meeting.

The information provided covers various time periods, and performance in three odds ranges.

All figures shown are the number of wins and winning percentage for each particular criteria. Where a jockey, trainer, or combination has not recorded a win, the entry indicates that by showing a zero, followed by the number of non-winning runs in brackets.

**Jockey, Trainer, Jockey/Trainer:** The name of the individual or combination.

**Win record by location (country, provincial, metropolitan):** This first set of data covers the last 12 months and is the basis for the Leaderboard ranking.

**Win record at the Track:** There are two time periods shown - 3 months (to reflect current form) and 2 years (for a broader overview).

**Win record at the Track (2 years):** The jockey, trainer, or combination record is broken down into three starting price odds ranges - less than or equal to \$5.90, between \$6.00 and \$9.90, and when the starting price is longer than \$10.00.

**Win record by location (Country, Provincial, Metropolitan):** There are two time periods shown - 3 months (to reflect current form) and 2 years (for a broader overview).

**Win record by location (2 years):** Again, this record is broken down into three starting price odds ranges - less than or equal to \$5.90, between \$6.00 and \$9.90, and when the starting price is longer than \$10.00.

**Win record All Tracks:** The full record on All Tracks is shown for the last 3 months and the last 2 years.

**Win record All Tracks (2 years):** For this longer time period the record is again reported on by odds ranges - less than or equal to \$5.90, between \$6.00 and \$9.90, and when the starting price is longer than \$10.00.
